Moisturizing Glasses

SMART NEBULIZING EYEWEAR

Soothing Dry Eye Symptoms, Nourishing the Window to the Soul

MORE THAN HALF OF THE GLOBAL POPULATION SUFFERS FROM EYE SUB-HEALTH ISSUES.

China has **753 million** mobile internet users, and there are over **4.8 billion** internet users worldwide. **95%** of mobile internet users have poor eye habits. So far, there are **360 million** dry eye patients in China.

MAJOR CAUSES OF DRY EYES

PHYSIOLOGICAL AND ENVIRONMENTAL FACTORS

Aging, lack of sleep, stress, etc.
Contact lenses, air pollution, UV exposure, etc.

SURGERY AND MEDICATIONS

Refractive laser correction, corneal transplantation, excessive use of antibiotic and preservative-containing eye drops.

EXCESSIVE SCREEN TIME

Prolonged screen exposure reduces blinking frequency from the normal 20-25 times per minute to as low as 5-10 times, leading to decreased tear production.

WHY TRADITIONAL TREATMENTS ARE CHALLENGING?

NOT CONTINUOUS

Drops offer temporary relief but can be inconvenient and painful.

INCONVENIENT

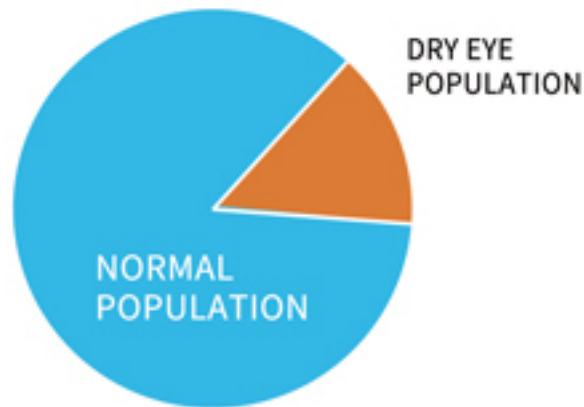

Frequent hospital visits for nebulization therapy, which takes up to 2 hours, can be cumbersome.

NOT PROMPT

Slow-acting liquid relief is not ideal when your eyes are fatigued and you need quick relief.

NOT LONG-LASTING

Tears and eye discomfort while working at a computer can disrupt your productivity.

INCIDENCE RATE APPROACHES **21%~30%**

On average, 1 in every 3 people suffers from dry eyes.

LONG-LASTING EFFECT

Can be worn all day, with an extended standby time of one week, and 10 hours of continuous use on a single charge.

ERGONOMIC DESIGN

Ergonomic design provides a lightweight and comfortable wearing experience.

3-SECOND NEBULIZATION

Micron-level steam replenishment, refreshingly cool and invigorating.

DETACHABLE LENS DESIGN

Detachable lens design caters to various scenarios.

NEBULIZING WATER TANK WITH ANTIBACTERIAL

An antibacterial material water tank prevents bacterial growth on the surface, and users can replace the water tank according to their needs.

COMPATIBLE WITH EYE DROPS

Can be used with various eye drops and eye care solutions to meet different user needs.

SAFETY AND EFFICACY GUARANTEED

Officially Certified Medical Device

CLEAR TREATMENT PRINCIPLES

High-frequency vibrations, micro-hole nebulization, particles smaller than 5 micrometers, achieving medical-grade moisturizing effects to relieve dry eye symptoms.

OFFICIAL CERTIFICATION PROGRAM

The product has obtained Class I medical device registration, signifying its status as a "legitimate ID" for medical devices.

USED IN MULTIPLE HOSPITALS

Clinically tested and proven effective in numerous top-tier hospitals, with patients reporting significant symptom relief.

Suitable for Various User Groups

For Nearsighted Individuals:
Personalized prescription lenses are available, eliminating worries during work or study.

For Seniors:
Customized reading glasses with effective anti-fog features to relieve symptoms of dry eyes.

For Office Workers:
Personalized anti-blue light lenses offer protection against electronic screen radiation.
