

Technical Data Sheet

ChangFu® SBA11Br
Trimethylbromosilane

Description	ChangFu® SBA11Br is a highly reactive organosilicon compound with the Si-Br bond. With the ability to undergo several chemical reactions, it mainly serves as an important reagent in the preparation of organic compounds and pharmaceuticals.
Features & Benefits	Highly reactive organosilane with Si-Br bond. Commonly used reagent in organic synthesis.
Applications	Used as a silylation reagent and an intermediate in the synthesis of various organosilicon compounds, pharmaceuticals, and agrochemicals. Used as a laboratory chemical in the preparation of chemical compounds.

Typical Properties

Product No.	ChangFu® SBA11Br
Description	Trimethylbromosilane
CAS No.	2857-97-8
Formula	C ₃ H ₉ BrSi
Purity	min 95%
Color	Colorless
Appearance	Clear liquid

Package	Offered in 25L pails and 200L drums. Custom packaging is available.
Storage	Stored in a cool, well-ventilated place. Keep container tightly closed.
Transportation	See the corresponding Safety Data Sheet.
