

ChangFu® SBA10P

Triisopropylsilane

- Description** ChangFu® SBA10P is an isopropyl silane with a Si-H bond. Due to its unique structure and properties, it's mainly employed as a steric hindrance silylation reagent. It has been playing an important role in the preparation of various organic compounds and pharmaceuticals.
- Features & Benefits** Isopropyl silane.
Valuable reagent in organic silicon compound synthesis.
Effective steric hindrance silylation reagent.
- Applications** Used as a universal silylation reagent and an intermediate in the synthesis of various organosilicon compounds, pharmaceuticals, and agrochemicals.

Typical Properties

Description	Triisopropylsilane
Product No.	ChangFu® SBA10P
CAS No.	6459-79-6
Formula	C ₉ H ₂₁ Si
Purity	min 96%
Color	Colorless or light yellow
Appearance	Clear liquid

- Package** Offered in 25L PE pails and 200L PVF steel drums.
Custom packaging is available.
- Storage** Stored in a cool, well-ventilated place.
Keep container tightly closed.
- Transportation** See the corresponding Safety Data Sheet.
