

### ChangFu® SBA11Br

Trimethylbromosilane

**Description** ChangFu® SBA11Br is a highly reactive organosilicon compound with the Si-Br bond. With the ability to undergo several chemical reactions, it mainly serves as an important reagent in the preparation of organic compounds and pharmaceuticals.

**Features & Benefits** Highly reactive organosilane with Si-Br bond.  
Commonly used reagent in organic synthesis.

**Applications** Used as a silylation reagent and an intermediate in the synthesis of various organosilicon compounds, pharmaceuticals, and agrochemicals.  
Used as a laboratory chemical in the preparation of chemical compounds.

#### Typical Properties

Product No.	ChangFu® SBA11Br
Description	Trimethylbromosilane
CAS No.	2857-97-8
Formula	C <sub>3</sub> H <sub>9</sub> BrSi
Purity	min 95%
Color	Colorless
Appearance	Clear liquid

**Package** Offered in 25L pails and 200L drums.  
Custom packaging is available.

**Storage** Stored in a cool, well-ventilated place.  
Keep container tightly closed.

**Transportation** See the corresponding Safety Data Sheet.
