

Technical Data Sheet

ChangFu® SBA11P
Triisopropylchlorosilane

Description ChangFu® SBA11P is a chlorosilane with three isopropyl groups. It is a highly reactive liquid that undergoes various chemical reactions. Its unique structure and properties make it commonly perform as a steric hindrance silylation reagent and a protection agent.

Features & Benefits Isopropyl silane with high reactivity.
Effective steric hindrance silylation reagent.
Valuable reagent and intermediate in organic synthesis.

Applications Used as a silylation reagent and an intermediate in the synthesis of various organosilicon compounds, pharmaceuticals, and agrochemicals.

Typical Properties

Description	Triisopropylchlorosilane
Product No.	ChangFu® SBA11P
CAS No.	13154-24-0
Formula	C ₉ H ₂₁ ClSi
Purity	min 96%
Color	Colorless or light yellow
Appearance	Clear liquid

Package Offered in 25L pails and 200L drums.
Custom packaging is available.

Storage Stored in a cool, well-ventilated place.
Keep container tightly closed.

Transportation See the corresponding Safety Data Sheet.
