

Technical Data Sheet

ChangFu® N34
3-Aminopropyltris(trimethylsiloxy)silane

Description	ChangFu® N34 is a highly reactive, low molecular weight siloxane oligomer featuring primary amino groups, offering unique hydrophilicity and surface activity.
Features & Benefits	Primary amino functionality. Able to enhance wettability and dispersibility. Ideal choice as a lubricant and surface modifier.
Applications	Used as an important monomer in silicone-based hydrogel contact lenses. Used as an end-capping agent for silicone rubber, resin, and oils. Used as a surface modifier to enhance adhesion and compatibility in coatings and adhesives.

Typical Properties

Product No.	ChangFu® N34
Description	3-Aminopropyltris(trimethylsiloxy)silane
CAS No.	25357-81-7
Formula	C ₁₂ H ₃₅ NO ₃ Si ₄
Purity	min 97%
Color	Colorless or light yellow
Appearance	Clear liquid

Package	Offered in 25L pails and 200L drums. Custom packaging is available.
Storage	Stored in a cool, well-ventilated place. Keep container tightly closed.
Transportation	See the corresponding Safety Data Sheet.
